INTRODUCTION

Keeping in mind, the importance of social welfare and to make students sensitive and aware this project is an important part of the curriculum. These kinds of social and useful activities make the students aware of the needs and problems of the society as they are on the road to be an integral part of the future educational society. The main objective of the social welfare Project is to understand the procedure of Non Government Organizations and to work for them. The students participate in different co-curricular activities in close collaboration with the organization. Besides this learning different kinds of skills and understanding the value of society and culture and included in this curriculum. Concerning these objectives it was decided to work with Ankur - An Institution of mentally retarded students. This school is indulged to educate mentally retarded and Hearing disabled children as well as make them efficient to complete their basic and fundamental needs so that they can flourish and prosper in their future.

ESTABLISHMENT OF ANKUR PUBLIC SCHOOL

Ankur School was established by Jind Central Jayeri Educational And Charitable Trust, Jind. The person who established this Trust was the members of Indian Jayeri, and they followed the belief that "The bestest work of life is to serve humanity."

The Jayeri took start to serve for humanity and society for which they established Ankur- an institution for mentally challenged persons and Hearing impaired persons. while working with Jayeri we felt that the social work whatever we do, directly or indirectly affects the human being and society. The main objective of establishment of this institution is to make the children so efficient so they can complete their basic and fundamental needs so that they can flourish and prosper in their future. They are having special blessings of God because these children do not have any type of jealousy, fear, hate or any negative feeling for anyone. They are having loving and clean hearted children. so to serve these children

is same as to worship God

On 15 May, 2007, Ankur - an institution for mentally challenged persons and Hearing Impaired Persons, was started with a pooja in the hall of Somnath Mata Devi Mandir. Today, 75 students are studying in Ankur Public School which consists of mentally Retarded, Hearing Impaired etc.

In Ankur Public School, D.Ed Special Education course was also started by the trust in 2015. With the Special Education course, students will get a chance to enhance their future. Now, Trust also trying to start B.Ed (Special Education) course from next session.

SOURCES OF INSPIRATION....

The source of inspiration to serve mentally retarded children is Jayees Ankur. Due to lack of special schools in their locality, it becomes a necessity to open a school for special needs children. Jayees Ankur's took a step forward to establish school for special need children. For this, they donate an amount of Rs 11,51,000/- to the school. From time to time, they help and support for effectively running the school.

CONTRIBUTION TO THE SCHOOL....

1. Haryana's honorable former Chief Minister Ch. Bhupendra Singh Hooda plays vital role in the establishment or to give foundation to the school. He donates land to the school for building and an amount of Rs 11 lac to the Ankur - An Institution.
2. The Ex-Education Minister Shri Mangaram Ji Gupta donates Rs 11 lac and Public Welfare and Transport Minister Shri Randeep Singh Surjewala donates an amount of Rs 11 lac.

PLANNING FOR THE CURRENT YEAR....

With pleasure it is informed that this year (2015-18) D.Ed. Special Education Course was started by the Triv. with the special course students will get a chance to enhance their future because government has considered D.Ed. equivalent to T.B.T. Now Triv. has also applied for B.Ed and D.Ed (Hearing Impaired) courses. and have belief that these courses will be started in Ankur School from next session.

PLANNING FOR FUTURE

1. Vocational Education for students.
2. To provide hostel facilities to the students.
3. To provide 6 more school buses for the facility for student's up and down. Because of which 20 to 30 km area's students will get facility of school bus.

FACILITIES

The numerous facilities are being provided to the students by the Trust which are listed below:-

1. The Facility of well educated and experienced faculty to edify and instruct the students.
2. Providing Physiotherapy Hall for the mental and physical development of the children.
3. Providing game facility to each.
4. Provision of getting recreation for each.
5. Providing well furnished environment of education and learning for children.
6. Providing Bus facility to bring students to the school and their homes.

ACHIEVEMENTS OF SCHOOL

STUDENTS

Always students participate in each and every sports, cultural and educational competitions. Many students have won many different contests as are listed below:

1. After getting education from this school, Two students have got admission in ordinary school.
2. Sonu who got 1st position in Drawing Competition at state level in 2010 was awarded in Panipat on 14 Nov, 2010 by honourable Governor of Haryana.
3. Amit also got the same prize in Gurgaon on 14th Nov, 2011 by Haryana's Governor.
4. On Republic Day Ceremony many students of this school got 2nd Prize in action song and were awarded by honourable Minister Haryana Government Randeep Ji Surajwala. Thus, in the same way, the students of this school are used to getting 1st and 2nd Prize in the Competition.

5. One student of Ankur School got second prize in Fancy Dress Competition.
6. The students of this school actively participate in cultural programmes which you have seen directly.
7. Those students who are studying in this school, have positive results and near about 20 to 30% development can be seen in their mental level.
8. Two students of this school won gold medal in special Olympic Football Competition.
9. District Special Olympic Games were organised in Ankur School on 10 March, 2013, in which near about 300 special need students took part.

EXPERIENCE IN ANKUR PUBLIC SCHOOL

Our experience in Ankur - an institute for mentally retarded children was very knowledgeable as well as an eye-opener to the efforts that can be made to make mentally retarded children self-dependent. The NERD is working towards educating the mentally Retarded and Hearing Impaired children. Efforts are being made provide skills to them, so that they can establish themselves.

The Infrastructure of the school is very remarkable. The school building is well maintained. Facilities like drinking water is provided to children. Hygiene is maintained.

Bus Facility is also provided to the children. The school has library, resource room and different classrooms. The students are divided according to their level of MR i.e. Vocational, Pre-vocational and trainable classrooms.

Each class has only 5 students with single teachers.

The Institute is also running a D.Ed (Special) Course in MR. These students also help the teachers and carry out their internship program in the school.

Several vocational skills are also taught to the students like candle making, recycling waste material.

Exhibitions are also organised of the things prepared by the students. This helps the students to become self dependent. The students of Ankur School participate in each and every sports, cultural and educational competitions.

The overall environment of the school is appreciable. Some of the students were showing remarkable development. The school carries out awareness activities in the nearby villages to make the parents aware.

The overall experience was very good in the school. It made me realise the efforts taken up by the school and the difficulties and the challenges the teachers face in teaching the students. A lot more is to be done for them.
